

Gletscherinventar GI4 2018

Type Enterprise Geodatabase Feature Class

Tags Gletscher, Österreich, Abgrenzung, Gletscherausdehnung

Summary

Abgrenzung der Gletscher durch die Univ. Salzburg (Buckel, Johannes; Otto, Jan-Christoph (2018): The Austrian Glacier Inventory GI 4 (2015) in ArcGis (shapefile) format. PANGAEA, <https://doi.org/10.1594/PANGAEA.887415>)

Description

Buckel, Johannes; Otto, Jan-Christoph (2018): The Austrian Glacier Inventory GI 4 (2015) in ArcGis (shapefile) format. PANGAEA, <https://doi.org/10.1594/PANGAEA.887415>

All Austrian glacier extents were mapped on the base of Google Earth images. Aerial images were available on following dates: 18/07/2015, 31/07/2015, 05/08/2015, 08/08/2015, 13/08/2015, 27/08/2015, 29/08/2015, 30/08/2015, 01/09/2015.

Except for the glacier Ödenwinklkees: Glacier extent based on UAV-flight 31/08/2016 by GEORESEARCH Forschungsgesellschaft mbH.

The glacier boundaries were manually mapped by one expert and crosschecked by two peers. However, different opinions about glacier extents are possible in the case of snow and debris cover.
